EDUCATION

Nxtwave Disruptive Technologies Industry Ready Certification in Full-stack Development	Dec 2023 - Ongoing
Yashoda Technical Campus ,Wadhe, Satara B Tech (Bachelor of Technology)_Computer Science Engineering (CSE)	2022 - 2026
Sadguru Gadage Maharaj College, Karad Higher Secondary School Certificate. (59.4%)	2020 - 2022
Yashwant High School, Karad Secondary School Of Certificate (82.60%)	2019 - 2020

SKILLS

Frontend: HTML, CSS, Bootstrap

Backend: Python

Databases: SQLite, SQL, Mongo DB

Other skills: Power BI, MS Excel, MS Office

CERTIFICATIONS

- **Build Your Own Static Website** [link](#)
- **Build Your Own Responsive Website** [link](#)
- **Introduction to Databases** [link](#)
- **XPM 4.0 Fundamentals** [link](#)

PROJECTS

- **Food Munch Website** foodwebsh1.ccbp.tech

Developed a responsive portfolio website using HTML, CSS, and Bootstrap. Implemented a mobile-first design approach, ensuring seamless performance across all devices. Leveraged Bootstrap's grid system and components for efficient layout design, enhanced with custom CSS for a unique look. The project emphasizes clean, modular code and optimal user experience, showcasing proficiency in modern web development practices.

Technologies used: HTML, CSS, Bootstrap

- **Building Data Analytics Dashboard at NxtWave Workshop** [link](#)

Utilized advanced data analytics techniques to develop a comprehensive Real Mart Analysis dashboard. This tool provided real-time insights into sales trends, customer behavior, and inventory management, enabling informed decision-making. Employed data visualization and statistical analysis to optimize marketing strategies and drive revenue growth. Streamlined reporting processes, enhancing efficiency and accuracy in business operations.

Technologies used: Power BI, Kaggle, MS Excel

- **Building and Deploying an Application on Amazon Web Services** [link](#)

Participated in an advanced AWS workshop hosted by NxtWave, led by Mr. Revanth Gopi Konakanchi, Head of Engineering. Gained hands-on experience with key AWS services, including EC2 for scalable server deployment, RDS for managed databases, Route 53 for DNS and traffic management, S3 for secure storage, and CloudFront for efficient content delivery. This workshop enhanced my ability to deploy, manage, and optimize cloud-based applications, and deepened my understanding of cloud infrastructure and services.

Technologies used: EC2, CloudFront, Route 53, S3

WORK EXPERIENCE

1. Cognifyz Technologies

Front-end Development Intern (remote)

July 2024 - Present (1 month)

Nagpur, Maharashtra

During this internship Gained hands-on experience in front-end development by building a responsive and interactive website. Created the foundational HTML structure and utilized inline CSS for styling to enhance visual appeal. Implemented responsive design techniques using media queries to ensure usability across various devices. Developed interactive features with JavaScript, including dynamic background color changes. Integrated public APIs for real-time data retrieval and displayed it seamlessly within the site. Designed user-friendly forms with client-side validation, improving data integrity and overall user experience. Refactored the project using a CSS framework to ensure consistent styling and streamline development.

2. Cognifyz Technologies

Web Development Intern (remote)

July 2024 - Present (1 month)

Nagpur, Maharashtra

During this internship I Developed and designed simple web pages using HTML and CSS, including headings, paragraphs, images, and navigation menus. Built interactive features using JavaScript, such as color-changing buttons and alert boxes displaying greetings based on time. Created a basic calculator for simple arithmetic operations. Implemented responsive design principles by converting static web pages into mobile-friendly layouts using CSS media queries and front-end frameworks like Bootstrap and Bulma. Developed a responsive card component and a collapsible hamburger menu, enhancing user experience across various devices.

3. Prodigy InfoTech

Web Development Intern (remote)

July 2024 - Present (1 month)

Mumbai, Maharashtra

During this internship I Developed a responsive landing page with an interactive navigation menu that dynamically changed styles on scroll and hover using HTML, CSS, and JavaScript. Created a stopwatch web application that allowed users to start, pause, and reset timers while tracking lap times. Built an engaging tic-tac-toe game with user interactivity and game state management using HTML, CSS, and JavaScript. Designed and implemented a personal portfolio website to showcase skills and projects, enhancing visual appeal and user experience. Developed a weather application that fetched and displayed real-time weather data using an external API, showcasing proficiency in API integration and dynamic content rendering.

ACHIEVEMENTS

- [Certificates of the NxtCode Challenge!](#)

For Successfully Achieving the 21 Day Milestone in the NxtCode Challenge conducted in April 2024 exclusively for CCBP 4.0 Academy students.
